## ABOUT IVHEM

IVHEM is a global forum for the exchange of practical experiences for translating diagnostic and therapy advances of viral hepatitis into broad applications that accelerate progress toward elimination of viral hepatitis as a public health threat.

## WHO SHOULD ATTEND?

Medical professionals, including but not limited to Clinicians, Researchers, Public Health representatives, Industry representatives, who look beyond the individual patient and who would like to be involved in the elimination of viral Hepatitis.

## MEETING OBJECTIVES

- Identify the roadblocks and the challenges to come to an integrated approach to eliminate viral hepatitis.
- Identify the needs from the public health perspective.
- Get a cross-disciplinary discussion started.
- Create a platform for collaboration and national action plans.

## WHY SHOULD YOU ATTEND?

The workshop provides a cross-disciplinary platform for information exchange between experts involved in the treatment of hepatitis-infected patients. Your participation is essential in order to take the necessary steps forward to eliminate viral hepatitis.
